

## Community Issues Caused by Technology

### Google Slides Assignment

1. Identify one negative impact technology has had on our society.
2. Create a Google Slides Presentation with a partner to present your chosen issue to the class
3. Consider a creative way to introduce your issue
  - a. Find at least one credible internet source that talks about your issue
  - b. Summarize information from that source that could be a good introduction.
4. Your Presentation should have the following
  - a. A minimum of 10 content slides
  - b. At least one graphic organizer (e.g. bar graph, Venn Diagram, line graph, pie chart, etc...)
  - c. At least one picture (either cited properly or taken by you)
  - d. A theme that matches your topic (either a template from the website or one you made yourself)
  - e. Do not end with “any questions?”
  - f. Citations should be on each slide
  - g. The word “technology” cannot appear in your presentation
  - h. You must answer the following questions:
    - i. Why was it developed/invented?
    - ii. What good does it do or what good was it intended to do?
    - iii. What bad things have been caused/happened because of it?
    - iv. Who profits from its use?
    - v. What media sources are saying good things about it? And who funds them?
    - vi. What media sources are saying bad things about it? And who funds them?
    - vii. Who are its biggest defenders and why?
    - viii. Who are its biggest critics and why?

Your presentation should take between 3 and 5 minutes in total.

If you use a video or sound byte in your presentation, it should also fit within the allotted time. Videos cannot exceed a total of 30 seconds of your presentation.
